### DETAILED ACTION

1. Claims 1-104 are pending in the instant application. Claims 1-59, 61-64, 67-83, 89 and 91-104 remain withdrawn.

### *Response to Arguments*

2. The remarks filed on November 13, 2009 have been fully considered, however, they are not found to be persuasive.

Thus, based on structural and electronic differences alone, one skilled in the art would not expect these compounds to have similar properties.

compound I. This interaction can manifest in reactivity differences such as the facile reductive cleavage of carbon heteroatom sigma bonds in allylic and benzylic-like systems, such as the sigma C-N bond shown in compound I. These orbital interactions are absent in compound II.

The arguments are noted, however, they are not found to be persuasive in that the activity in question is pharmacological. It is maintained that the prior art compound is structurally similar in that one of ordinary skill would have "reasonable" expectation that such a compound would also be pharmacologically active.

Thus, the Examiner has not provided reasoning for 1) choosing Compound II as a lead compound, nor 2) provided a reason to modify Compound II in a particular manner to provide Compound I.

It is note that the prior art compound has pharmacological utility, and thus it is a reasonable candidate for modification. The motivation is to produce alternate compounds with that utility.

### *Conclusion*

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1626

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
